SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

1.1 Product identifier

Trade name: Ashlar Mortar
Duro
Finish WP
Forte
Grippa
Natural Finish
Natural Lime Mortar
Natural Stipple
Prepbond WP
Prompt Mortar
Pure Lime Grout
Roman Cast
Roman Stucco
Solo
Shelter Coat
Tradimortar
Tradirend
Traditional Lime Screed
Ultra

1.2 Relevant identified uses of the substance and uses advised against

Dry mix building product to be mixed with water in accordance with the relevant TDS.
All other uses advised against.
1.3 Details of the supplier of the Safety Data Sheet

Name: Lime Green Products Ltd
Address: Coates Kilns,
         Stretton Road
         Much Wenlock
         Shropshire
         TF13 6DG
Phone №: 01952 728611
Fax №: 01952 728361
E-mail of competent person responsible for SDS in the EU: enquiries@lime-green.co.uk

1.4 Emergency telephone number

European Emergency №: 999 or 112
Emergency telephone at the company 01952 728611
(office hours only)

SECTION 2: HAZARD IDENTIFICATION

2.1. Classification of the substance

2.1.1. Classification according to Regulation (EC) 1272/2008

Skin irritation 2
STOT Single Exposure 3
Serious Eye Damage 1

2.2. Label elements

2.2.1. Labelling according to Regulation (EC) 1272/2008

Signal word: Danger

Hazard pictogram:

Hazard statements:
H315: Causes skin irritation
H318: Causes serious eye damage
H335: May cause respiratory irritation
Precautionary statements:
P102: Keep out of reach of children
P280: Wear protective gloves/protective clothing/eye protection/face protection
P305+P351+P338+P310: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor
P302+P352+P333+P313: IF ON SKIN: Wash with plenty of soap and water. If skin irritation or a rash occurs get medical advice/attention.
P362: Take off contaminated clothing and wash before reuse.
P261: Avoid breathing dust/spray
P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P501: Dispose of contents/container in accordance with local regulation

2.3. Other hazards
No other hazards identified.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2 Mixtures:
Main constituents

Those listed below, in addition to other non-hazardous impurities.

<table>
<thead>
<tr>

SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures

Following inhalation
Stop source of dust or move person to fresh air. Obtain medical attention immediately.

Following skin contact
Carefully and gently brush the contaminated body surfaces to remove all traces of product. Wash the affected area immediately with plenty of water. Remove contaminated clothing. If necessary seek medical advice.
Following eye contact
Rinse eyes immediately with plenty of water or suitable saline solution and seek medical advice. Do not rub eyes.

After ingestion
Rinse mouth with water and drink plenty of water. Do not induce vomiting. Obtain medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed
The product is not acutely toxic. The substance is caustic and classified as irritating to skin and the respiratory tract, and entails a risk of serious and permanent damage to the eye.

4.3. Indication of any immediate medical attention and special treatment needed
Follow the advice given in section 4.1. When seeking medical attention present this SDS.

SECTION 5: FIRE FIGHTING MEASURES

5.1. Extinguishing media
Suitable extinguishing media
The product is not combustible. Use a dry powder, foam or CO₂ fire extinguisher to extinguish the surrounding fire.
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2. Special hazards arising from the substance
None

5.3. Advice for fire fighters
Avoid generation of dust. Use breathing apparatus. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures
For non-emergency personnel
Keep dust levels to a minimum.
Keep unprotected persons away.
Wear suitable protective equipment (see section 8).
Avoid inhalation of dust.

For emergency responders
Keep dust levels to a minimum.
Keep unprotected persons away.
Wear suitable protective equipment (see section 8).
Avoid inhalation of dust.

6.2. Environmental precautions
Contain any spillage and cover area if possible to avoid unnecessary dust. Avoid uncontrolled spills to watercourses and drains (pH increase). Inform the Environment Agency or other regulatory body in the event of a large spillage into watercourses.
6.3. Methods and material for containment and cleaning up
In all cases avoid dust formation. Use suitable industrial vacuum with HEPA filters for dry product, or shovel into containers using a light water mist to suppress dust. For wet material shovel or mop up. Always use suitable PPE.

6.4. Reference to other sections
For more information on exposure controls/personal protection or disposal considerations, please check section 8 and 13 of this safety data sheet.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling
Protective measures
Avoid contact with skin and eyes. Wear protective equipment (refer to section 8). Do not wear contact lenses when handling this product. It is also advisable to have eyewash nearby. Keep dust levels to a minimum, taking special care when opening and mixing bags. Avoid inhalation of dust and used suitable dust masks. When handling bags usual precautions should be paid to the risks outlined in the Council Directive 90/269/EEC.

7.2. Conditions for safe storage, including any incompatibilities
The product should be stored in dry conditions. Any contact with air and moisture should be avoided. Keep away from acids. Keep out of reach of children.

7.3. Specific end use
None

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters
SCOEL recommendation (SCOEL/SUM/137 February 2008; see Section 16.6):
Occupational Exposure Limit (OEL), 8 hrs TWA: 1 mg/m³ respirable dust of calcium dihydroxide
Short-term exposure limit (STEL), 15 min: 4 mg/m³ respirable dust of calcium dihydroxide

HSE EH40/2005 recommendation
Workplace Exposure Limit WEL 8hrs TWA: 0.1mg/m³ respirable dust of crystalline silica

These values are read-across to the product in view of the anticipated equivalent local effect (pH is comparable to that of CaO and Ca(OH)₂).

8.2. Exposure controls
Avoid making dust. Appropriate protective equipment is recommended. Eye protection equipment must be worn. Additionally, face protection, protective clothing and safety shoes are required to be worn as appropriate.

8.2.1. Individual protection measures, such as personal protective equipment
Eye/face protection
Do not wear contact lenses. Wear tight fitting goggles with side shields, or wide vision full goggles. It is also advisable to have eyewash nearby.
Skin protection

Lime is classified as irritating, so exposure to skin should be minimised as far as possible. Use protective gloves (nitrile), protective standard working clothes fully covering skin, full length trousers, long sleeved overalls, with close fittings at openings and shoes resistant to caustic materials.

Respiratory protection

Local ventilation to keep levels below established threshold values is recommended. A suitable particle filter mask is recommended, depending on the expected exposure levels.

Thermal hazards

None

8.2.2. Environmental exposure controls

All ventilation systems should be filtered before discharge to atmosphere. Avoid releasing to the environment. Contain spillages. Any large spillage into watercourses must be reported to the Environment Agency or other regulatory body.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

9.2 Other information

None
SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity
Reacts with water to form a solid mass which does not pose any hazards.

10.2. Chemical stability
Under normal conditions of use and storage, the product is stable.

10.3. Possibility of hazardous reactions
The product reacts exothermically with acids. When heated above 580 °C, calcium dihydroxide decomposes to produce calcium oxide and water. Calcium oxide reacts with water and generates heat. This may cause risk to flammable material.

10.4. Conditions to avoid
Prevent exposure to air and moisture until use.

10.5. Incompatible materials
The product reacts with acids to form salts. In the wet, unhardened state reacts with aluminium, brass and other base metals leading to the formation of hydrogen.

10.6. Hazardous decomposition products
None.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects
Not acutely toxic.

Skin corrosion/irritation
Irritating to skin

Serious eye damage/irritation
Serious damage to the eye and possibly loss of sight

Respiratory or skin sensitisation
None of the main constituents e.g. calcium dihydroxide, calcium carbonate, calcium silicate, silica dioxide and calcined clay minerals, are known to cause any sensitisation.
Irritating to the respiratory tract.

Prolonged exposure of respirable crystalline silica by inhalation may lead to silicosis in lungs.

SECTION 12: Ecological Information

12.1. Toxicity
When used and disposed of as intended, no adverse environmental effects are foreseen. Do not allow un-set product to enter watercourses.

12.2 Persistence and degradability
Not relevant for inorganic substances
12.3 Bioaccumulative potential
Not relevant for inorganic substances

12.4 Mobility in soil
The product reacts with water and/or carbon dioxide to harden, after which it is essentially insoluble, and has low mobility in soils.

12.5 Results of PBT and vPvB assessment
Not relevant for inorganic substances

12.6 Other adverse effects
No other adverse effects are identified

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods
Product:
Dispose of the product in accordance with local and national legislation. Harden unused product with water. Do not dispose of in sewers or water courses.

<table>
<thead>
<tr>
<th></th>

</tbody>
</table>

SECTION 14: TRANSPORT INFORMATION

The product is not classified as dangerous for transport.

SECTION 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance
Authorisations: Not required
Restrictions on use: None
Other EU regulations: None
National regulations: None

15.2. Chemical safety assessment
A chemical safety assessment has been carried out for this substance.
SECTION 16: OTHER INFORMATION

Data is based on our latest knowledge but does not constitute a guarantee for any specific product features and does not establish a legally valid contractual relationship.

Version: 1.2
Supersedes: n/a
Date: 01/16/2017
Valid until: Further notice
Revisions from previous:
- Removed references to Directive 67/548/EEC
- Added new products to list
- Removed headings and text where n/a
- Added information on crystalline silica
- Updated composition info

**End**
